Exhibition

Among the exhibits are pottery, shell, wooden and other craftwork including landscapes, stuffed goods, gem works and grass works.

Our potteries have been famous in the world for their excellence. Our ceramics have won gold medals on many occasions at the International Commodity Exhibitions which were held ten times every year.

The kinds of flower pots portraying the festival mark which are put on show at the gallery alone reach 100.

"Light music band" which is an object of shell craftwork in particular attracts the attention of people; over 120 kinds of wooden works such as "a carriage and pair" and "tortoise boat" are admired by people for the novelty of their producers' conception and high skill.

Our people's favorites such as hats, mesh bags, cushions and fans which are plaited with coloured rush, straw, grass stalk are worth of seeing. Their variety numbers several hundreds. Scores of kinds of objects of craftwork which are portraying Mt. Kumgang, magpies, eagles and tigers impress people favorably.

All these souvenir commodities show our people and youth's sincerity to adorn the 13th WFYS, the first of its kind in Asia, as an unprecedented excellent one.

Foreign guests who will come to attend the festival will get special commodities of Korea as their souvenirs, as they like.

# **South Korean Students Invited to 13th WFYS**

The Korean Preparatory Committee of the 13th World Festival of Youth and Students and the Korean Students Committee in a letter to the "National Council of Student Representatives" of south Korea on December 26, last year, invited patriotic youth and students in the south to the 13th World Festival of Youth and Students which will be held in Pyongyang in July, 1989 and proposed to hold north-south student talks to negotiate practical affairs at Panmunjom in early March, the north and the south forming delegation consisting of 9-11 members each.

This initiative is a patriotic nation-loving initiative.

If the youth and students of the south attend the Festival, a good opportunity will be provided for the creation of atmosphere of national reconciliation and unity of the north and the south and this will also be good to deepening friendship and solidarity with the world youth and students.

Now the preparation work for Pyongyang Festival, the great political festival of the world youth and students, is progressing in full swing on a world-wide scale and is being made at the final stage in our country.

There is no reason why the youth and students of the south should not join the Festival which is to be held in Pyongyang, not in other country, when a large number of world youth delegates from 5

continents who are different from each other in idea, political view, language and colours are to take part in it. The participation of south Korean youth and students is quite reasonable and natural.

The young people of the south are our brothers of the same blood and they belong to the new generation who should pave the way for peace and make a breakthrough for reunification together with us for the future of the nation.

The joint participation in the Festival will make us fulfill our desire to meet each other at Panmunjom—the desire which was miscarried on June 10 and August 15 last year and fully display all over the world the firm and patriotic spirit of the Korean youth to live in a reunified country. This will mark a great event for our nation and for the world people and youth who love peace.

Today the youth and students of the south who are aspiring after peace, friendship and reunification insist on their participation in the Pyongyang Festival.

But the fulfilment of their demand depends on the attitude of the south Korean authorities.

The present internal and external situation is favorable for the solution of this problem and there is enough time.

We believe the youth and students of the south will surely come to attend the Pyongyang Festival.

## **Bulletin No. 1 Published**

The Venezuelan National Preparatory Committee for the 13th WFYS published the bulletin No. 1.

The bulletin carried an editorial titled, "The 13th World Festival of Youth and Students. For Anti-Imperialist Solidarity, Peace and Friendship".

The editorial said that today the world's youth are faced with the task to actively conduct the preparations for the festival, and added that the Venezuelan youth and students are also duty bound to join the world's youth and students in their efforts for peace and friendship and

are ready to make every effort for preparations for the 13th WFYS to be held in the capital city of the country of morning calm.

The bulletin printed the appeal adopted by the Venezuelan NPC.

# **Pyongyang Focuses World's Attention**

At the end of last year, a round-table talks was held in Pyongyang between the officials of the Korean Preparatory Committee of the 13th WFYS and the staffs of embassies of different countries in our country.

The speeches of the officials of the Korean Preparatory Committee were followed by the First Secretary of the Embassy of the Polish People's Republic.

Saying that the friendship relation between Poland and Korea is developing through the mutual visits of the leaders of the two countries, he stressed that the Polish youth are effectively pushing ahead with preparation for the 13th WFYS.

He pointed out that Pyongyang is a heroic city which sprang up from the debris of war and the World Festival of Youth and Students is to be held there for the first time.

He estimated highly the success achieved by the Korean youth in their preparation for the festival and socialist construction.

The Second Secretary of the Embassy of the

Algerian Democratic People's Republic said that Pyongyang focuses the world's attention for the 13th WFYS to be held there, and continued to say:

This festival is not a simple meeting of the world's youth and students, but will become a grand international gathering of the youth and students of all walks of life from five continents.

The youth of five continents who will come to Pyongyang will share the experiences with each other and discuss the questions during the festival which mankind want to solve in the present century and in future.

Today preparation for the festival is being made wonderfully not only in Korea but also on the world scale. Magnificent and modern sports and culture facilities built in Pyongyang in a short time will contribute to a successful holding of the festival. The Korean people are taking a high pride in it. I am convinced the Korean people will also successfully hold the 13th World Festival of Youth and Students as they splendidly held the celebrations of the 40th founding anniversary of the DPRK.

## **Solidarity Letter of the NC of YCL, the United States**

A solidarity letter in connection with the 13th WFYS was sent to the C.C. of the League of Socialist Working Youth of Korea by the National Committee of the Young Communist League of the United States.

It pointed out:

The 13th World Festival of Youth and Students to be held in Pyongyang in 1989 is an event of particular importance in the international movement of youth and students. It is because the festival would no doubt make an important contribution to strengthening the unity of youths in action for peace.

Your organization hosting the festival is doing a decisive contribution in the world festival movement and in realizing its ideal. The great self-sacrificing spirit and unstinted efforts made by the Korean working youth and students for preparations of the festival are

highly estimated.

The American youth and students plan to visit your country and develop friendship with the Korean youth. Our league assures you that it will make every possible effort to guarantee the success of the festival movement.

Expressing its resolution to launch into a powerful struggle to make the US troops and nuclear weapons withdraw from south Korea in 1989, the letter said:

We believe the withdrawal of the US armed forces from south Korea will accelerate the peaceful settlement of the artificial division of the Korean peninsula.

We fully support the new proposals made by the Workers' Party of Korea and the Government of the Democratic People's Republic of Korea.

# Moran Hill

*Moran Hill stands along the Taedong River which flows through the centre of Pyongyang, venue of the festival.*

*It was originally called Mt. Kumsu but was renamed Moran Hill because it is as beautiful as a peony (Moran means peony). It has been regarded as the most beautiful hill for its picturesque scenery.*

*The highest place in this hill is the Choesung Pavilion.*

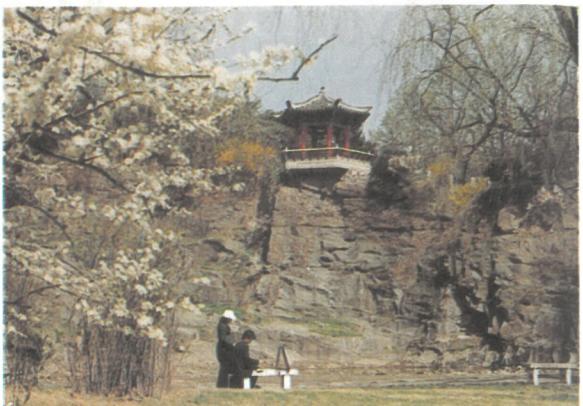

*Around it, there are many historical relics such as the Ulmil Pavilion and Choesung Pavilion and Chongryu Pavilion which add to the beautiful scenery of Pyongyang. These old remains make good harmony with such structures as Chongryu Pavilion, Hungbu Pavilion, Moran Restaurant, Kim Il Sung Stadium, the Tower of Liberation, the Tower of Friendship, the Chollima Statue, Moranbong Theatre which have been built to suit the sense of beauty. These tell of the long history of Pyongyang.*

*Sweet scent of ever-green trees and beautiful flowers is wafted along the scores of kilometre long promenade in the woods: voices of hares, pheasants, larks, owls, cuckoos and nightingales are heard, making people feel as if they were in a primitive forest.*

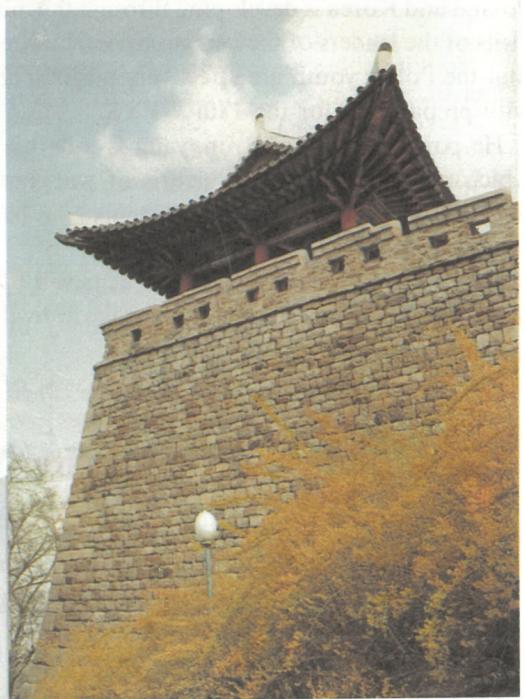

*In Moran Hill there are the Kaeson Youth Park and the Kaeson Fun Fair which have large number of visitors—old and young, boys and girls and young painters. Really these are lovely scene.*

*And people feel refreshed before fantastic Moran Fall and Chongryu Fall.*

*Today, the feature of Moran Hill is being changed more beautifully under the constant care of our Party with the oncoming 13th WFYS.*
